

THE DEMOCRAT PROMISES NEW TELEGRAPH SERVICE

Its Associated Press Report to Be
Trebled Tomorrow.

The Arizona Democrat makes an announcement that beginning with tomorrow it will increase its news service by adding 1,000 words to its Associated Press report. That will be the most complete, or rather the most nearly complete, report that any afternoon paper in Arizona has ever presented to its readers.

It has curiously happened that notwithstanding Phoenix is the capital of the territory and a good newspaper town, it has never occurred to the management of the afternoon papers that their readers might be interested to a great extent in what has been going on in the outside world.

They have therefore been served with the ridiculous "pious" report of 500 words, the smallest made up by the Associated Press. Now and then attempts, as ridiculous as the 500-word service used, have been made to supplement it by "embalmed telegraph," that is, unimportant matter under a telegraphic date line. Frequently stolen telegraph has been injudiciously employed.

A 1,500-word report, while far short of The Republican's service, is three times as much as 500, and will be therefore a decided improvement of its telegraphic page.

The new management of the Democrat further announces that this increased press service is only one of many features which will be shortly introduced for the betterment of the paper.

THE SLIM WOMAN IS WINNING.

The day of the slim woman's triumph has arrived. "The thinner one is the most stylish," say the dress-makers.

This would have been sad news for the fat woman a year ago. She would have had to try dieting or exercise. Nowadays, however, the woman who is too fat for the styles goes to a druggist and gets a case of Marmola Prescription Tablets, one of which she takes after each meal and at bedtime and so reduces her superfluous flesh quickly.

These tablets being made in accordance with the famous prescription, are perfectly harmless and they are, also, the most economical preparation a person can buy, for they cost only 75 cents a large case, one of which is frequently enough to start a person to losing fat at the rate of 12 or 14 ounces a day. Pretty nearly every druggist keeps this tablet in stock, but should yours be sold out, you can easily obtain a case by sending to the makers the Marmola Company, 213 Farmer Bldg., Detroit, Mich.

REGULATES KIDNEYS AND ENDS BACKACHE

Your Out-of-Order Kidneys Act Fine
and Bladder Misery Vanishes.

No man or woman here whose kidneys are out of order, or who suffers from backache or bladder misery, can afford to leave Pape's Diuretic untried.

After taking several doses all pains in the back, sides or joints, rheumatic twinges, nervousness, headache, sleeplessness, inflamed and swollen eyelids, dizziness, tired or worn-out feeling and other symptoms of clogged, sluggish kidneys simply vanish.

Uncontrollable urination (especially at night), smarting, discolored water and all bladder misery ends.

The moment you suspect the slightest kidney or bladder disorder, or feel rheumatic pains, don't continue to be miserable or worried, but get a fifty-cent treatment of Pape's Diuretic from your druggist and start taking as directed with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which is so harmless or will effect so thorough and prompt a cure.

This unusual preparation goes direct to the cause of the trouble, distributing its cleansing, healing and vitalizing influence directly upon the organs and glands affected and completes the cure before you realize it.

A few days' treatment of Pape's Diuretic means clean, healthy, active kidneys, bladder and urinary organ—and you feel fine.

Your physician, pharmacist, banker, or any mercantile agency will tell you that Pape, Thompson & Pape, of Cincinnati, is a large and responsible medicine concern, thoroughly worthy of your confidence.

Accept only Pape's Diuretic—fifty-cent treatment—from any drug store—anywhere in the world.

TETRAZZINI CONQUERS MEXICO.

Naively describing her conquest of Mexico as a prima donna, Mme. Luisa Tetrazzini relates an amusing experience she had in the town of Morelia. Her manager had been requested to send in advance the list of operas to be given during the week there. They were "Lucia," "Dinorah," "Traviata" and the "Barber of Seville."

"We were informed upon our arrival," writes Mme. Tetrazzini, "that the latter two operas could not possibly be given, as they were immoral. With the former it was, of course, the character of the heroine to which exceptions were taken, but were all somewhat at a loss to understand why 'The Barber of Seville' was included in the same category, and asked an explanation. It was promptly forthcoming.

"In 'The Barber' Almaviva disguised himself as a priest—in the famous lesson scene—and that could not be countenanced. In addition, the Sunday before our opening the archbishop had preached a sermon, warning his congregation not to attend

the opera performance, for he said: 'If you go once, you will surely go a second time. If a second time then a third, and thus you will run grave risk of forgetting your God.'

"In consequence, the first night the theater was but half full, and save for a few American and English women, the audience consisted entirely of men. There was not a single native Mexican woman present. For the second performance, however, the house was about three-quarters full, and after that we played to crowded houses. But in order to offend religious prejudice as little as possible, of course we did not give the two prohibited operas—we took certain liberties. The title of the opera 'Dinorah,' for instance, we changed to 'The Pardon of the Virgin,' and it was advertised as a Biblical opera, with the result that it attracted a very large audience, who listened to it with evident enthusiasm."—Travel Magazine.

GOOD DECORATIONS FOR THE FAMILY DINING TABLE.

For the small sum of 25 cents a luncheon or dinner table may be made exceedingly attractive if a jar or vase of flowers is placed in the center. Failing those, when the income must be considered, fruit is a good substitute, and a dish of oranges is by no means to be despised, even as a centerpiece for dinner.

The fruit should be put into a glass, silver or fancy bowl. As green apples enormously to their decorative effect, an effort should be made to get it, and if the cost of buying at a florist's makes it prohibitive, one should try fruit dealers, for almost all fruits that are boxed from wholesalers have green leaves as trimming. Mountain laurel is frequently used by them, and for ten cents one should secure two or three sprays.

The leaves may be stripped off and placed among the interstices of the whole oranges. They will keep for several days.
Asparagus vine is never expensive, and a fancy bowl of this in the center of the table is ornamental. The addition of a rather large bow of bright red satin ribbon, tucked among the sprays, will greatly increase the warmth of effect.

Any person who has friends living out of town should be able to get hydrangeas now. These flowers have wonderful powers of endurance. I use this expression because they seem to be able to withstand dust, and dry in perfect shape. For a while they are nice on the table, particularly if centerpieces embroidered in different bright colors are placed beneath the jar holding them. Hydrangeas should never be put into glass. They require the thickness and color of china.

A pretty piece of copper in which a small fern is placed is one of the most economical ways of decorating the center of a table. For the metal when

kept bright takes on a pinkish shade that is charming, and ferns put in it, if small and low, are prettier than when larger. Red in the centerpiece, or deep pink, adds to their beauty.
